
Iconcube4nanodriverzip

Why the commas I don't understand what commas are being used for? What do they do? What do they do in these specific cases? A: That comma has nothing to do with JSON, the commas are just part of the line. If you run the tool again you'll see the

same thing. > docker
info Containers: 0

Deferred Deletes

Disabled: false Query cache is disabled Block size: 64K If you run the command again you'll see some more text in the terminal, this is just a longer line for some reason. If you run the command again you'll see more text in the terminal. If you hit enter you'll see still more text

in the terminal. If you hit enter you'll see the docker info text again. If you remove the commas in the terminal and run the command again you'll see the docker info text once again. If you pipe the docker info text to the file you'll see what is in the file and you'll see the same thing: >

```
docker info | tee info.json
```

docker info > tee info. 6d1f23a050
